

Federation of Small Animal Practitioners Associations Of India

FSAPAI AGENDA for VCI ELECTION 2020

1. The private veterinarians add to the GDP by paying taxes, generating employments, giving professional services but ZERO representation in VCI.
2. Ensuring basic necessities like **blood bags** on veterinarian's prescription; including clarity on **scheduled drugs availability**, clarity and **nationwide uniformity on PNDR** regulations for veterinarians are needed.
3. For Interaction with State municipal bodies/ pollution control/State Public Health board etc, to form separate and **fair rules for veterinary clinics** and implemented.
4. For **Academic affairs** the syllabus should be updated as per the need may be every five years. Actual **field conditions requirements** should kept in mind while designing new syllabus. In **under graduate program** after third year the following **elective courses** should be introduced –Small Animals ,Livestock – poultry, dairy, Swine, Equine & Caprine ,Exotic animals.
5. The **standard of technical exposure** of graduating students with medical technology should be improved on priority. **Latest diagnostics and latest surgical procedures** should be included.
6. Veterinarians and Veterinary Students must be included in the list of eligible professionals at par with medicos for **Loan Eligibility , Insurance and Stipend**
7. Minimum **standards of Veterinary Practice** should be implemented in government and private hospitals/ clinics for the up gradation of professional services delivered.
8. To ensure that the veterinarians at **Govt hospitals/ Govt Polyclinics** should not be involved in other than professional duties.
9. The requirement of submission of attendance of **100 credit hours of Continuing Education/ hands on trainings** to ensure the professional up gradation of Veterinarians.
10. The council should act very strongly **against "QUACKERY"** in profession. Strict regulations must be implemented towards Breeders, Pet Shop Owners, & LSS.
11. **Technical courses** for Animal nursing / veterinary radiology/ veterinary pathology should be started in the veterinary colleges or at state levels.
12. Registered Veterinary Practitioner should be officially allowed to **practise in any state of India.**
13. Veterinary **Practitioners** should be mandatorily included as part of state **disciplinary committee** in the event of redressal. For **frivolous complaints**, the pet owners should be held accountable.
